

Book for the European Project Space Lisbon/November 2015

Dear Loc Nguyen,

I would like to thank you for your presence at the European Project Space held in Lisbon November 2015.

I hope you enjoyed the initiative.

Following the European Project Space initiative, we would like to invite you to write a book chapter related to your project presentation to be included in a book entitled “European Project Space on Knowledge Technology and Health Applications”, to be published by SCITEPRESS and to be made available at its Digital Library. This aims at offering an additional opportunity to disseminate information about the projects presented at the European Project Space in Lisbon. We would need your collaboration in order to have a swift publication process:

- Please reply ASAP confirming your interest in the publication of your project presentation in the European Project Space book.
- Then, if you agree, please kindly send me the extended version of your project presentation (PDF and editable file(s)) by February 2nd, 2016 and please try to keep the page length below 25, using the paper template format in attachment.

Kind Regards,
Carla Mota
